Score Keeping

As a club, we should be especially grateful to Karen Strohmeier for assisting with the scoring at several trials the past year. To be effective at this task, it must be done diligently through out the event so participants and spectators can see how they are doing in a timely manner. This means that those scoring can not watch other braces closely or even have time to visit and catch up with old friends. It is very nice to see a new member step up to the plate and tackle this often overlooked task.

The next trial you attend, be sure to thank Karen for her efforts. Also be sure to thank Caren Mansfield and Carla Fryar for their hard work during the trials. Until Karen stepped up to the plate, I believe those two have kept up with the task of scoring and posting at all the trials I have ever attended.
